

PetVet

GROOM & CLINIC

Dr. Halah Hashishah

Project Idea

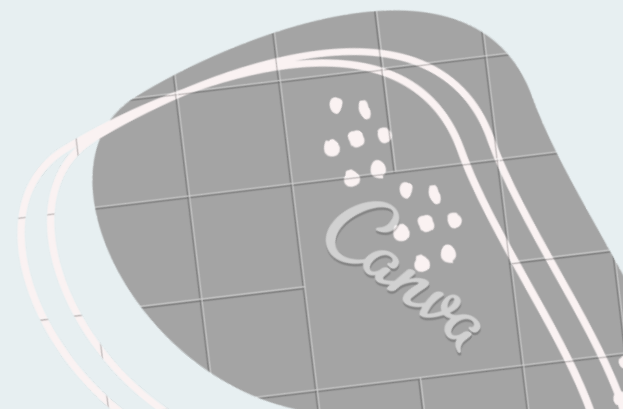

The idea of the app is to provide a convenient and user-friendly way for pet owners to book appointments with veterinarians and groomers. The app aims to make the process of booking appointments easier and more efficient by allowing users to schedule their appointments through the app.

Project Idea

By using the app, pet owners will be able to easily find and book appointments with veterinarians and groomers, without having to make phone calls or visit multiple websites.

Overall, the app aims to make the process of booking appointments for pet owners more convenient, efficient, and stress-free.

Milestone

Sprint(1)

implemented :

- 1-User registration: PetVet should allow users to create an account in the app
- 2- User log in: PetVet should allow the user to log in to their account in order to book appointments

Sprint(2)

Implemented :

Medical booking: Pet owners can book veterinary appointments through the PetVet app. Customers can choose a suitable time and date, as well as their preferred veterinarian.

Sprint(3)

implemented

Grooming booking: PetVet allows users to book appointments for pet grooming services, such as hair trimming, bathing, teeth cleaning, etc..

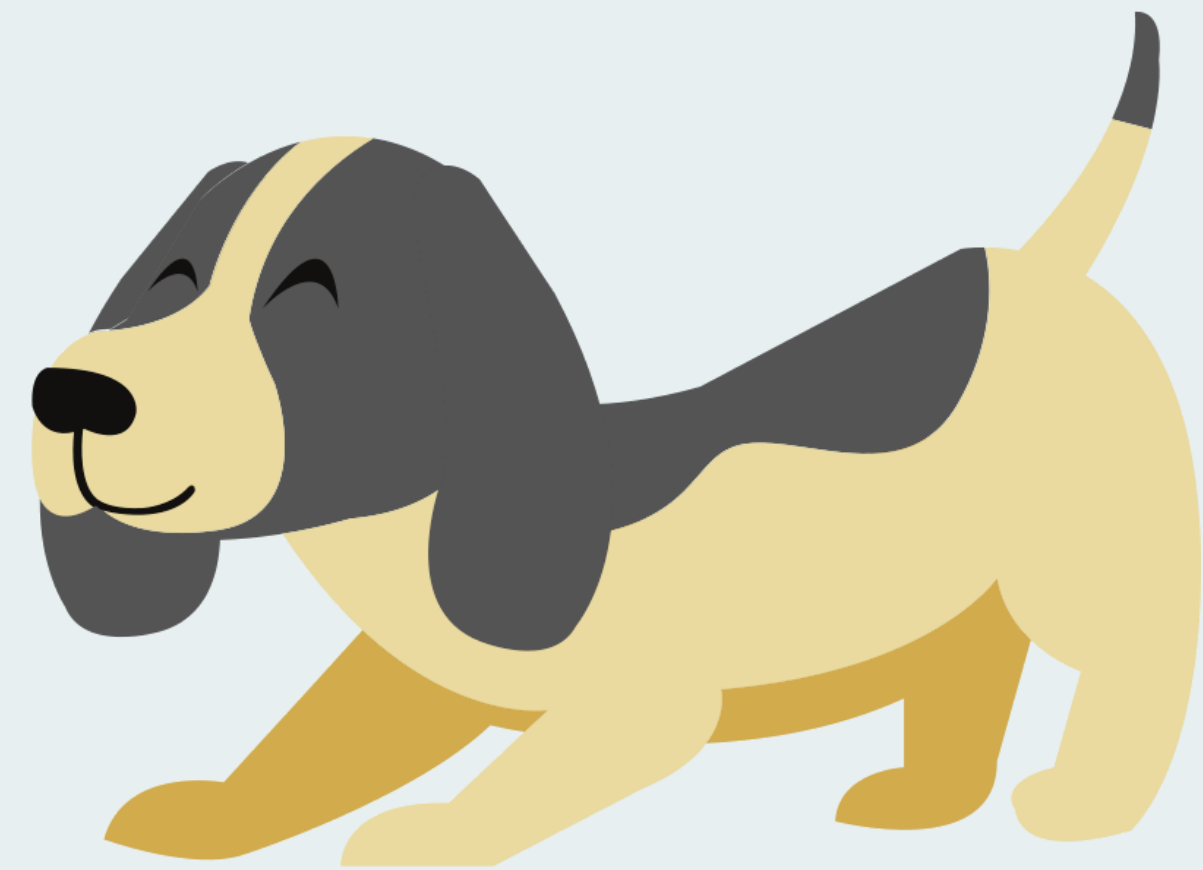

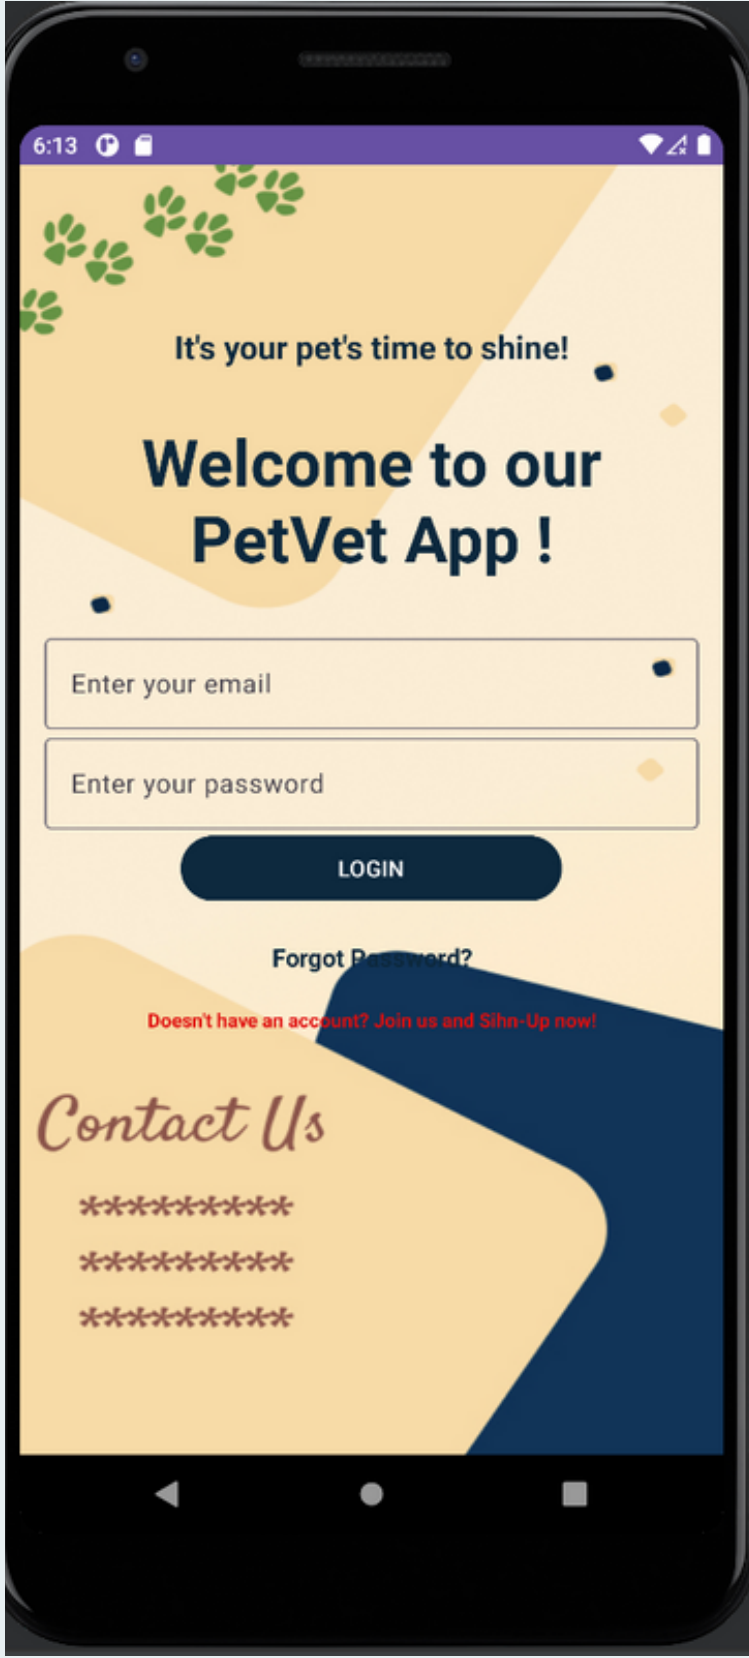

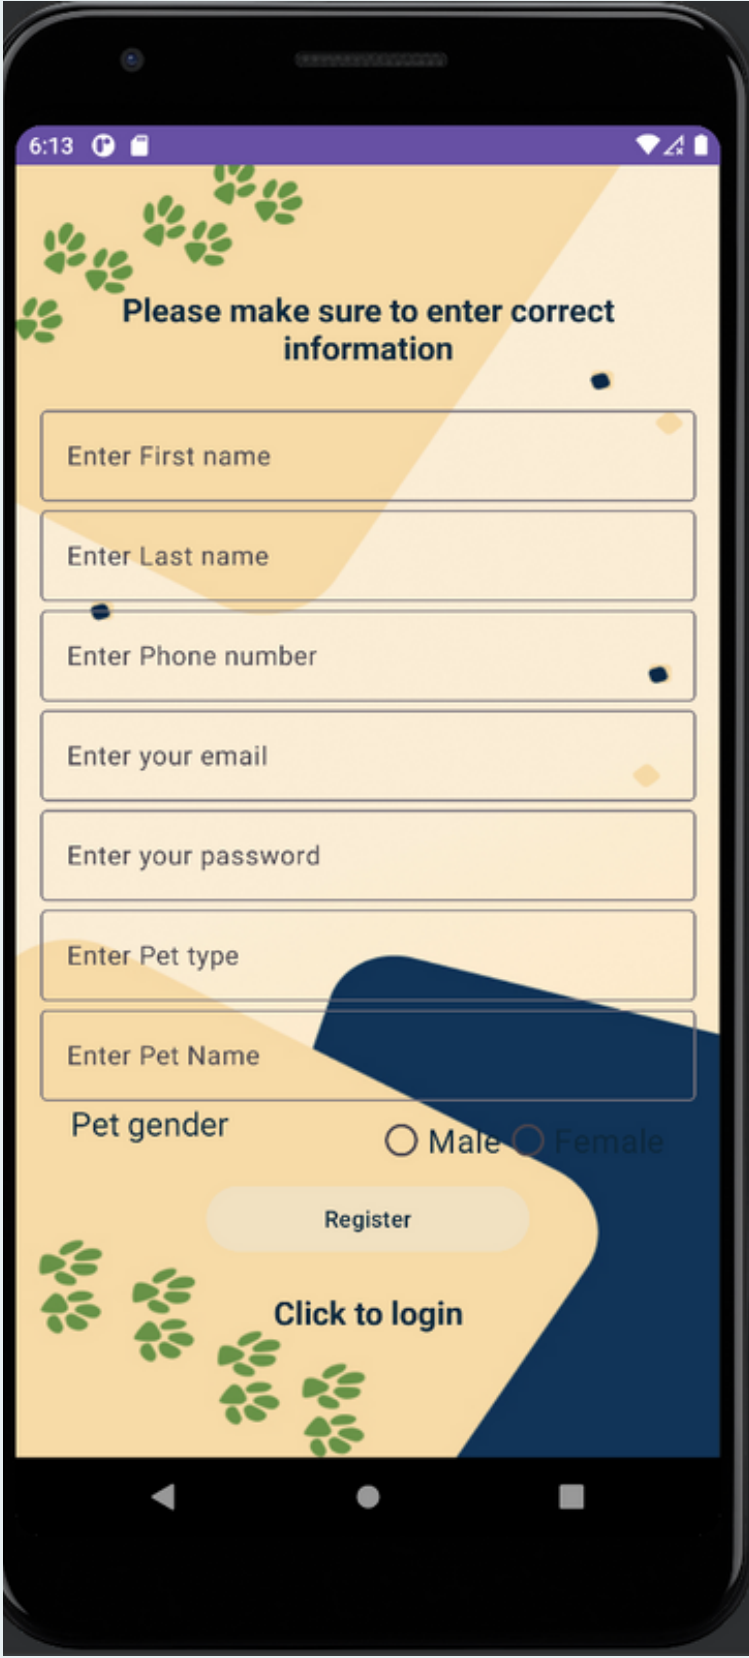

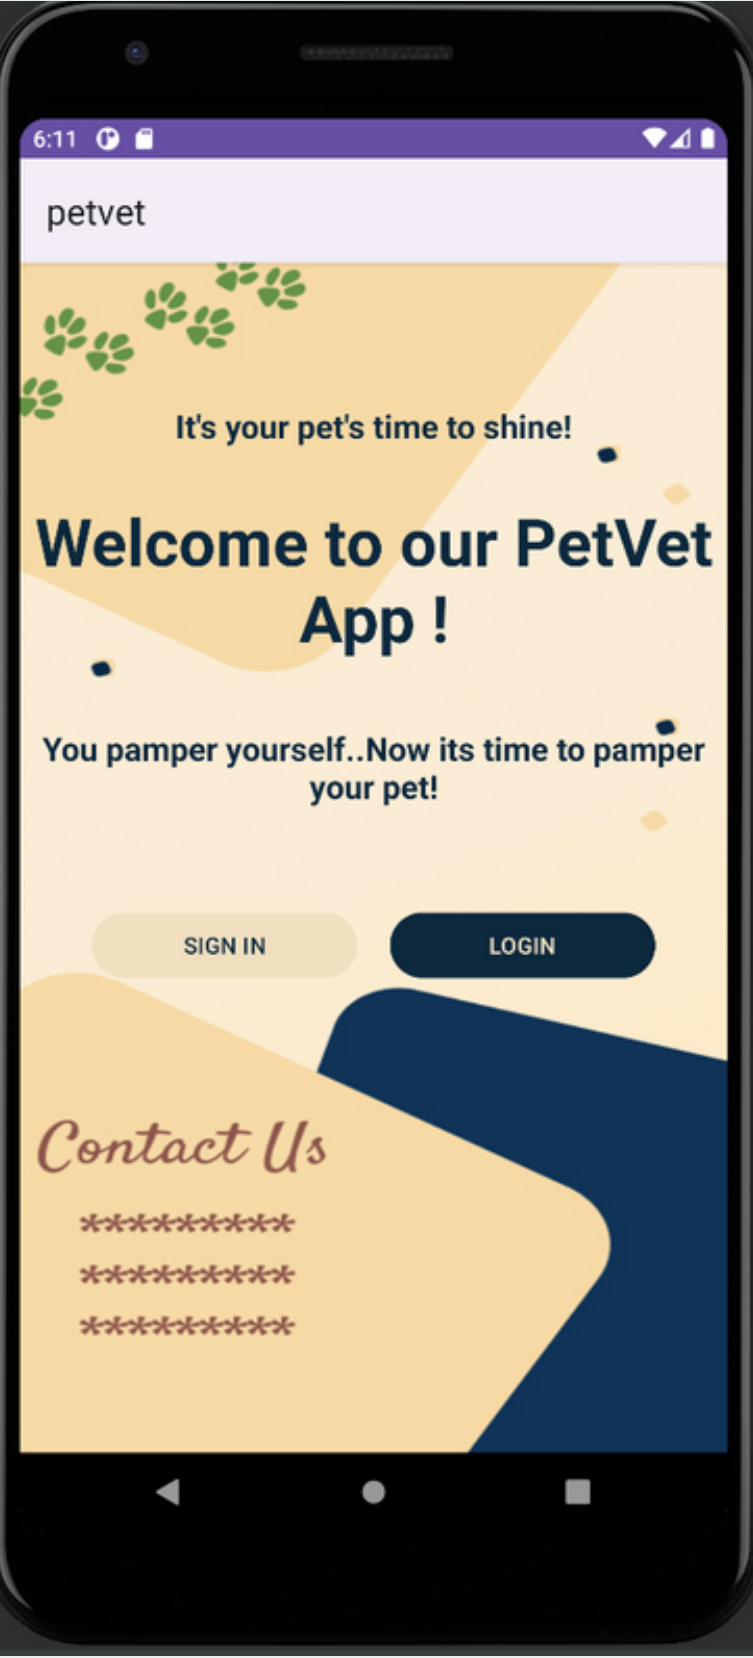

Login and Registration :

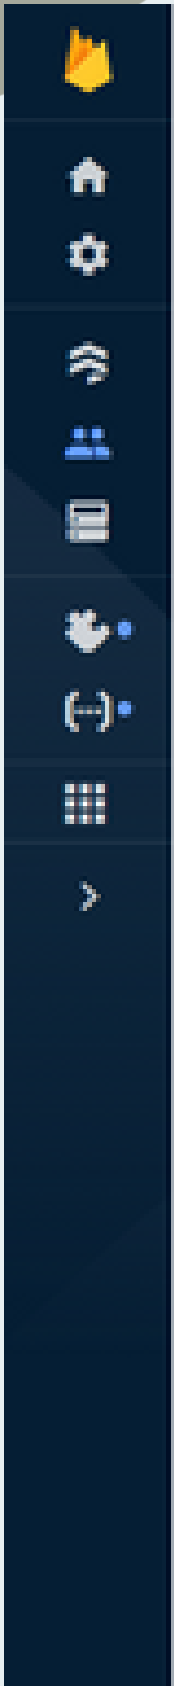

User registration is a key feature of PetVet, as it allows pet owners to create an account and access the full range of features offered by the app. To implement user registration,

the app integrate with a reliable authentication service " Firebase"

Authentication. This service provides a secure and easy-to-use solution for user authentication.

Medical appointments Booking

A medical booking service for pets can be a very useful tool for pet owners who need to schedule appointments with veterinarians. By using an app to book appointments, pet owners can save time and effort by avoiding the need to call or visit the veterinary clinic in person. Instead, they can simply use their smartphone to book an appointment from anywhere and at any time.

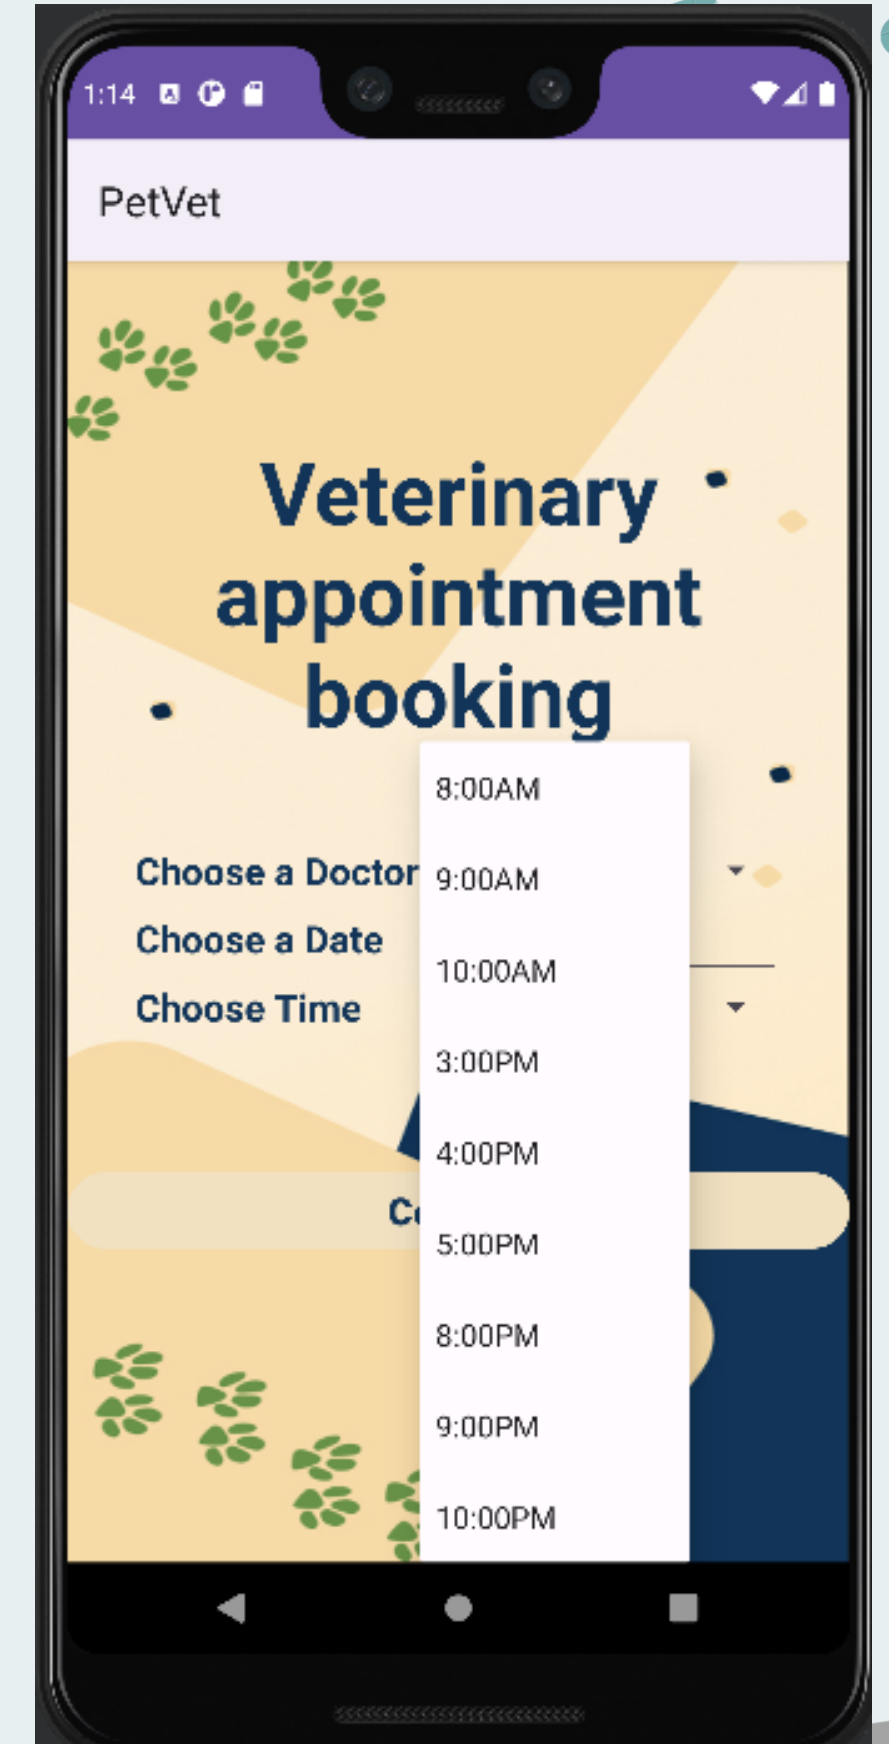

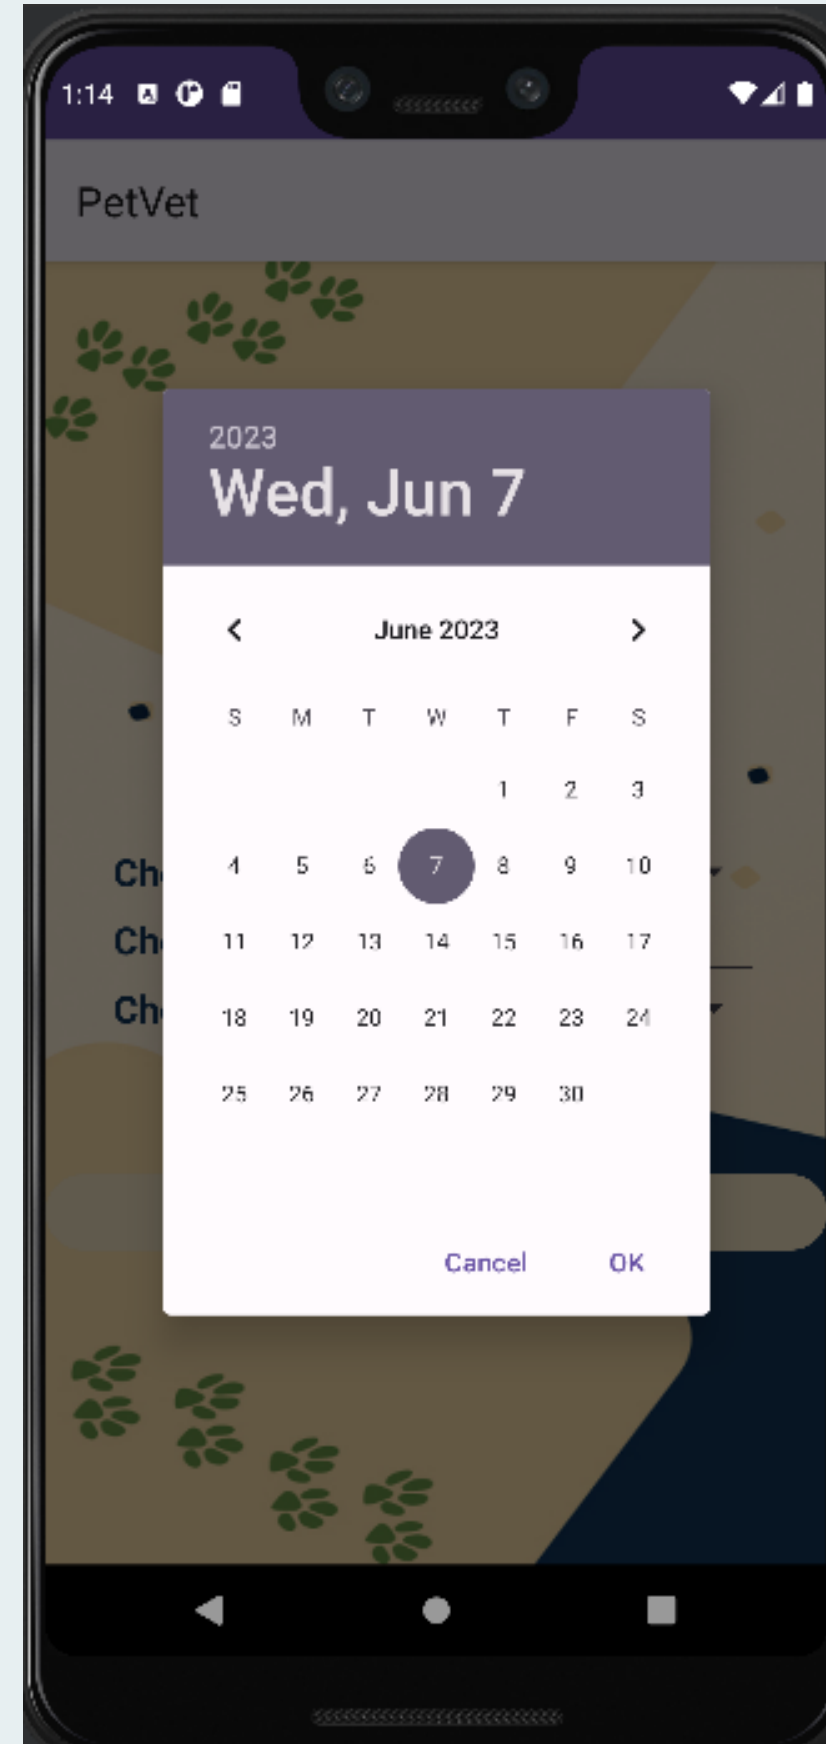

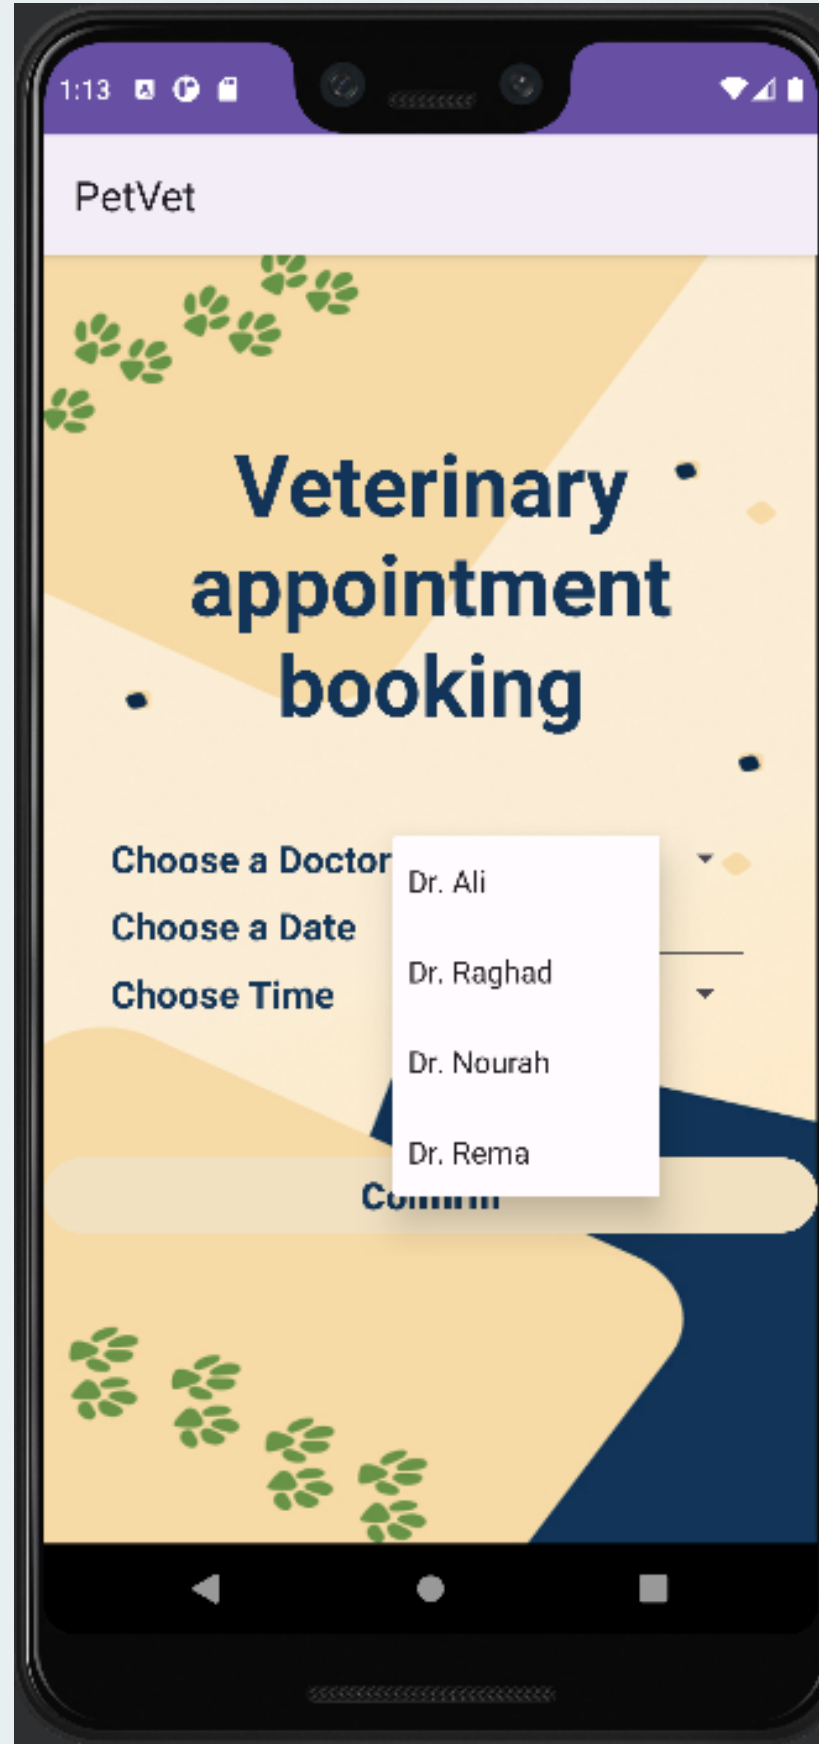

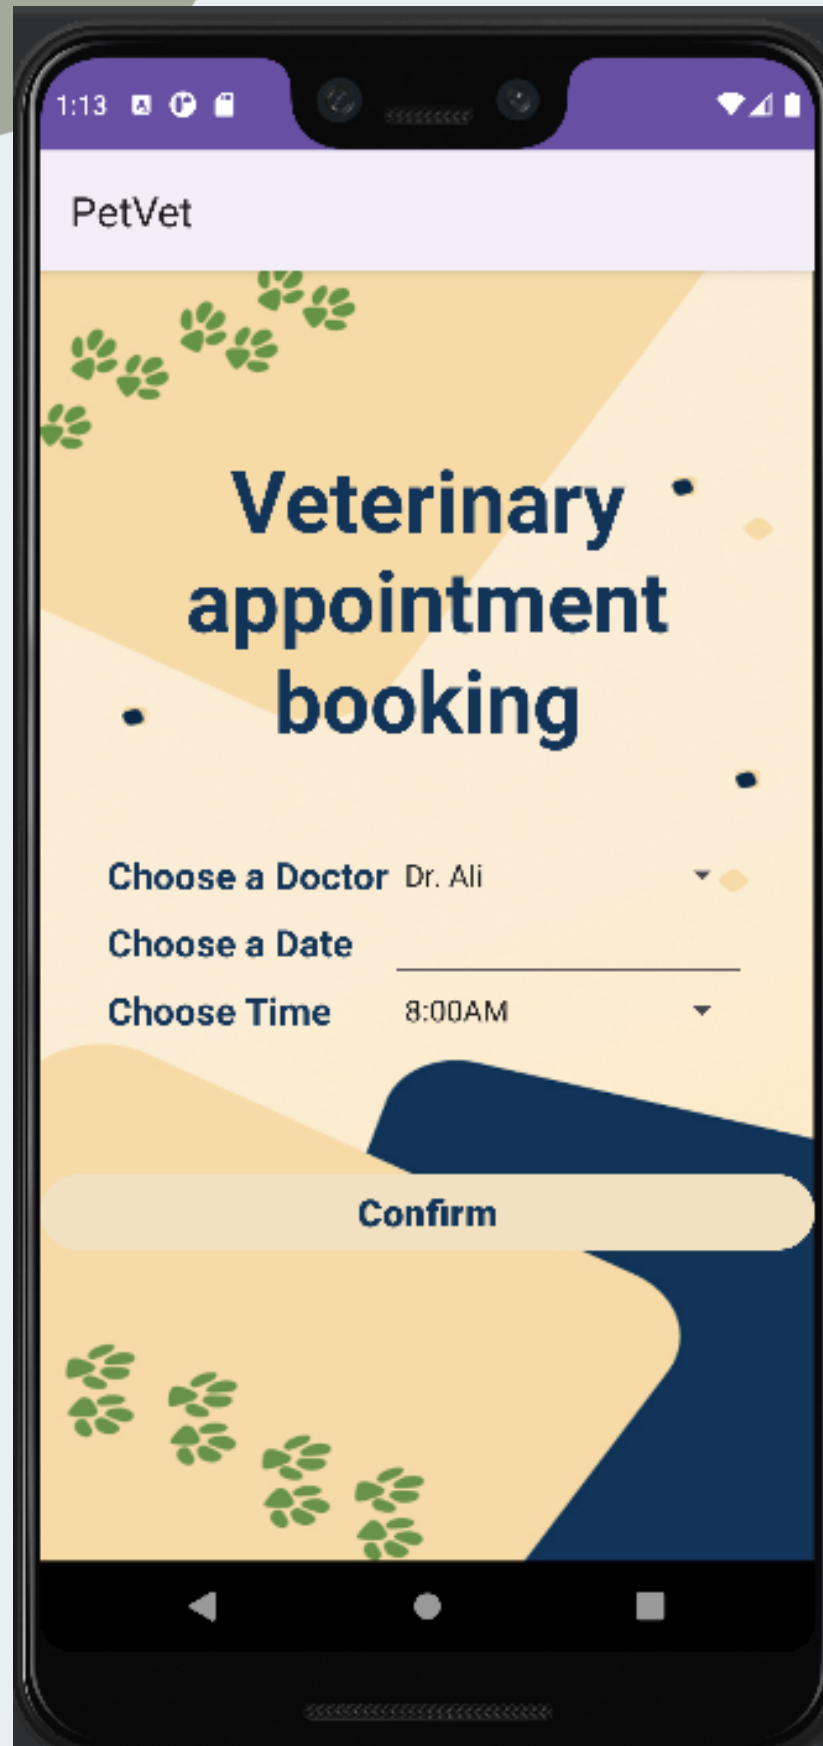

Medical appointments

Booking process:

To begin the booking process, the users should be presented with a list of available veterinarians. they can select the veterinarian and then move to select from available appointment time slots. along with a calendar that shows the available dates.

the user should be able to confirm their booking. Then the app should display a summary of the appointment details, including the date and time, veterinarian name.

Grooming

Booking grooming appointments on an app for our pets can be incredibly convenient for pet owners.

Pet owners can book grooming appointments anytime, anywhere, without having to wait for a groomer's office to open or be available to take calls. They can easily schedule appointments from the comfort of their own home or while on-the-go.

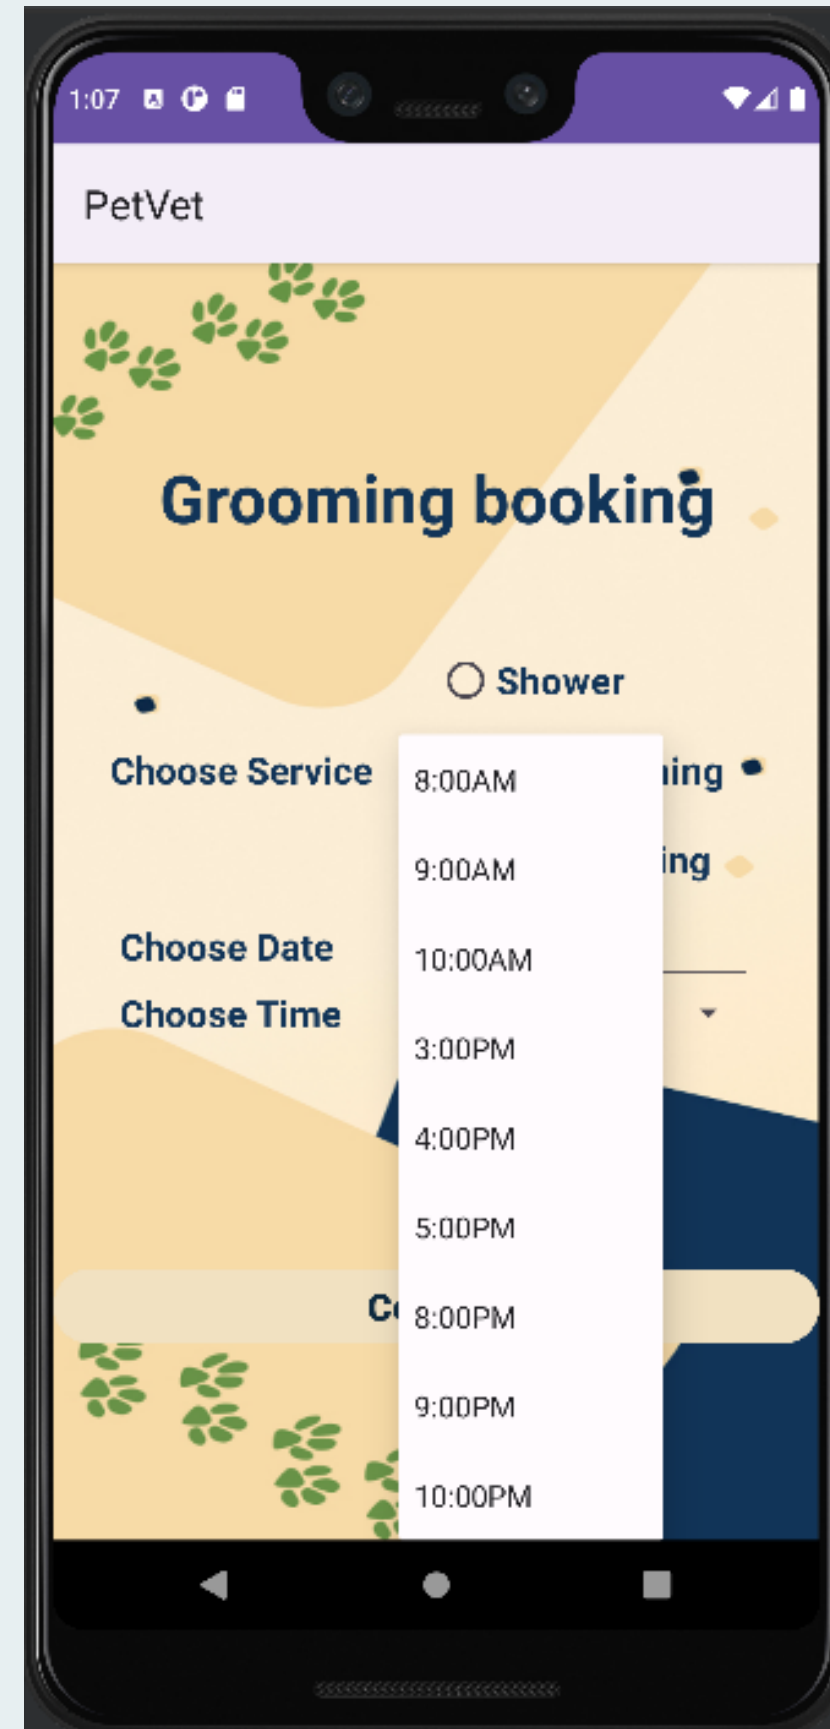

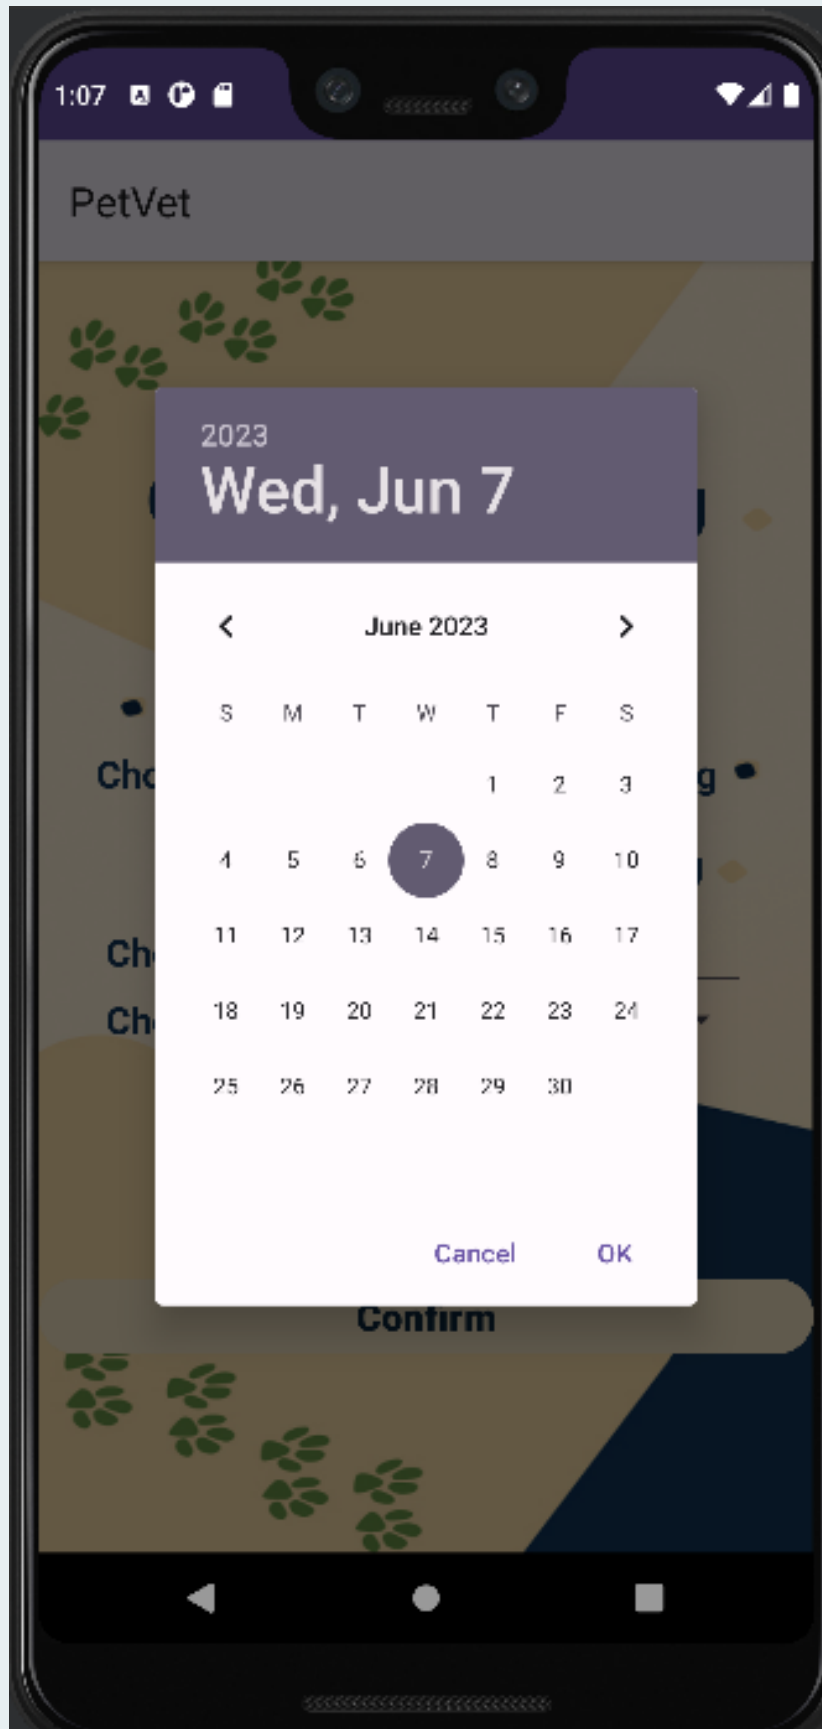

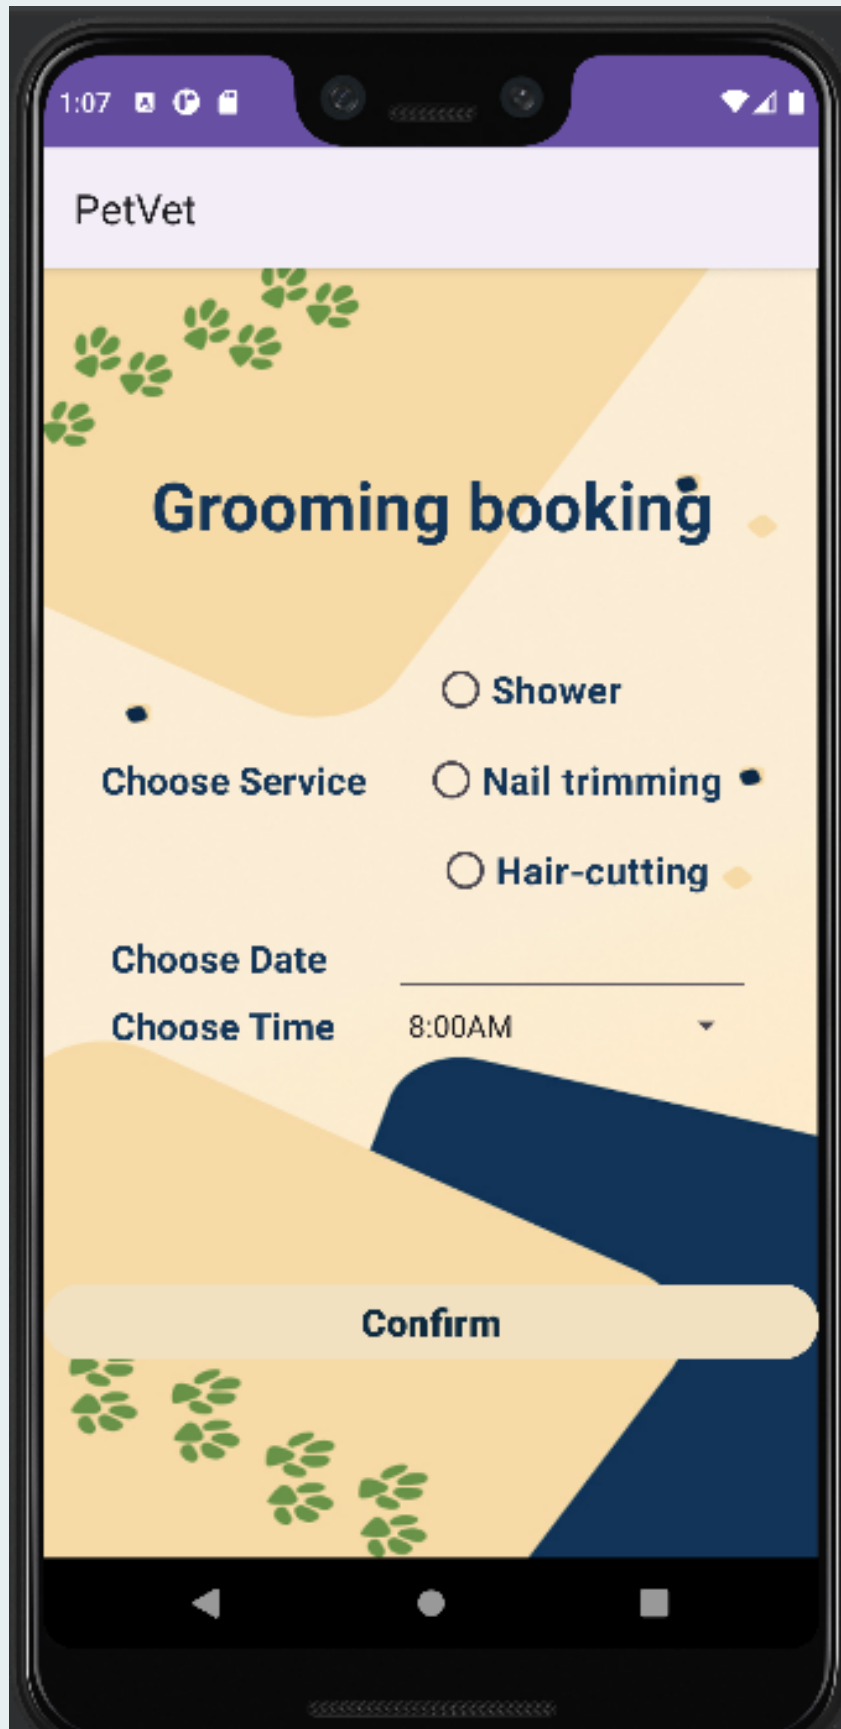

Grooming

In our app, the users are provided with three grooming services to select from:

- Showers
- Nail trimming
- Hair cuts

They can then choose a suitable time and date for the grooming appointment. Details will be shown after the booking has been completed.
